

To All Concerned Bangla speaking Australians Parents

The Estranged Fathers Group is an elite Family Law research unit of the Organization named "Justice And Government "[J**A**G] and since its beginning, the activists have linked with Communities across Australia and especially with the Federal Parliamentarians. The principal Bangla speaking Australian activist Mr. Jamil Shibli has joined hands with other parents groups and recently they have met the Attorney-General on the 13 October 2005 at the Federal Parliament and briefed the Minister about the Bangla speaking & other ethnic Communities feelings & feedbacks.

We ask your support and constructive suggestions to inform the Australian Federal Government to immediately implement the New Family Laws in Australia. The estranged fathers are those people Who became involuntarily alienated from their own Children due to the manipulations of their estranged partners and also due to the wrongful assessments / decisions of the Australian Courts. Like the alienated children, the estranged Fathers also do suffer and in a minority of cases the mothers also do suffer.

We are protesting against any kind of brutal alienations that make parents estranged from their own Children.

Dear Bangla speaking parents, please do not be silent, express yourselves !

Please inspire us, support us, join us.

E-mail us at jamshi44@hotmail.com

We are here to support you. Thanks.
