Press Release on the successful separation of conjoined Bangladeshi twins Krishna and Trishna

Bangladesh High Commission, Canberra would like to express its heartfelt thanks and appreciation to Doctors of Melbourne Royal Children's Hospital who have successfully separated conjoined Bangladeshi twins Krishna and Trishna.

The High Commission would also like to acknowledge the outstanding contributions to this medical procedure by the Chief of Children First Foundation Ms. Moira Kelly and Atom Rahman as well as Australian two volunteers, Danielle Noble and Natalie Silcock by fundraising for the treatment of the twins and other necessary support.

The High Commission also appreciates the support of all Australian well wishers who were associated with this very complicated medical procedure.

The High Commission wishes and prays for the very best of the future of the twins Krishna and Trishna.
