

## • Overview

The voluntary plastic surgical team from Australia consists of operating theatre staff (doctors and nurses) all fully trained and accredited. The members of the team who take their annual leave, pay their own flight costs and accommodation expenses and raise money to fully fund the project. The team also carry all supplies as personal luggage on the flight.

Your support and donation will be used to purchase more equipments and essentials hence more operations will be possible.

Here are examples of some of their success stories:

- This is little Robiul and his father Ghazi

Ghazi's wife died when Robiul was three months old. Little Robiul had a smile on his face from day one until he left

Before operation

after operations

- This is Afifa, who is 6 months old and weighs 4 kg. Pre and post operation. Her mother is 17 years old and Afifa is her second child.
