

Please Plant a Sapling (Tree) When You Visit Bangladesh

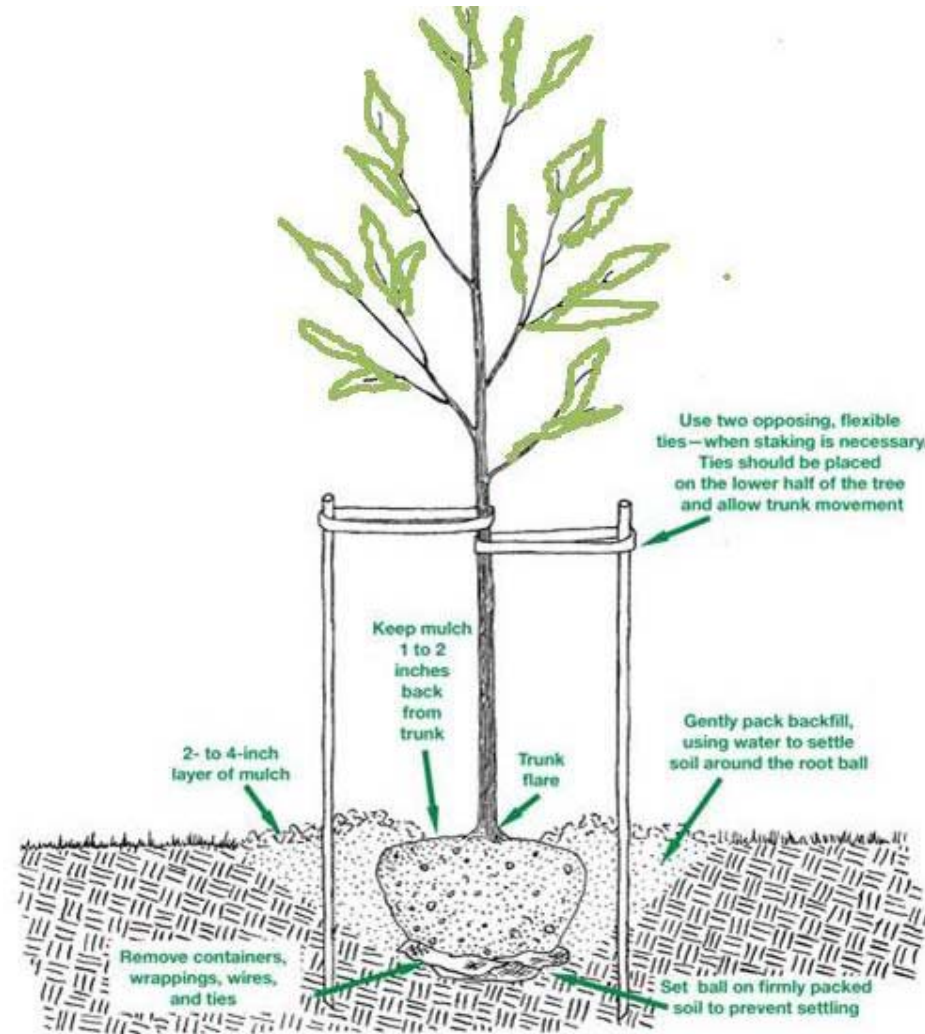

Dear Friends,

Trees are as important
as water for
sustaining life.

To combat global
warming and
climate change,
Bangladesh needs
more trees.

At the seminar held in
November 2008 in
Sydney, BEN took
19 resolutions,
including
requesting planting
a sapling when you
next travel
Bangladesh.

Dear Friends,

Please also encourage
your friends and
relatives to plant
trees. If possible,
involve the local
people and the
administration in this
noble task.

Kindly request them to
look after the
planted trees.

If you wish, you can let
us know about this
on
<http://priyoaustralia.com.au/ben>

Thank You.
