

# Rainbows !

By: Afrida Musarrat Prieta

Red, bright like cherries,  
Apples Tomatoes Strawberries,  
But there's 1 more red left....OOPS! Berries.

Carrots, orange and crunchy,  
Oranges, it's juicy like juice  
But Orange is something too,  
It's soft and smooth.

Yellow, hot like the Sun,  
The Sun Shines the  
World yellow seems like the world is done.  
Yellow can be nothing but it's something.

The Sky is blue with clouds,  
The Ocean is big and blue,  
But blue and yellow isn't the world biggest,  
The main thing is you.

Zucchini's, Granny Smith,

Zucchini long and green,  
Granny Smith green and crunchy,  
But which green is round and green...beans!

Indigo, Indigo,  
Strong dark blue,  
The sky and the ocean are indigo.  
But what else is Indigo...  
It's a mystery to me how about you.

Violet deep dark purple,  
Egg plants and Passion Fruits,  
These foods are the only purples we get,  
The only way we know is that we got to see their roots.
