

Pen and Paper

- Maheema Haque

*What would we do without pen and paper?
We wouldn't be able to write a letter.
There would never be scripts or books.
And nobody would go in the library for looks.*

*Without pen and paper how would we communicate?
Aen't these the keys to the knowledge world's gate?
How would we know from the school text books?
Of great discoveries, men, countries and cooks?*

*You see authors depend on pen and paper
If not, they would not be known for ever
So now we know how important a pen or paper is
But sometimes they distract us when we're in*

a whiz!
